### 👤 PROFILE

A Skilled full-stack developer and quick learner who adapts quickly to the new environment. Looking for a challenging role in the industry to utilize skills and learnings.

### 🎓 EDUCATION

#### **B.Tech (CSE) , Delhi Technological University**

04/2019 – 06/2023 | Delhi, India

#### **Secondary High Education, Delhi Board**

03/2018 – 03/2019 | Delhi, India

### 📜 CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals

### 🌐 LANGUAGES

Hindi

English

### 🔑 INTERESTS

- I absolutely love traveling and have a deep passion for exploring new places, cultures, and experiences.
- I am also deeply passionate about learning new technologies.

### 📁 PROJECTS

#### **Recipe Sharing Platform**

- Created a web-based recipe-sharing platform that allows users to discover, upload, and share their favorite recipes.
- The project involves developing a user-friendly interface for browsing and searching recipes.
- implementing features such as recipe creation and editing, and incorporating social features like user profiles, comments, and ratings to encourage community engagement and interaction.
- The platform aims to provide a seamless and interactive experience for food enthusiasts to explore, contribute, and find inspiration in the culinary world.

#### **Covid Awareness**

- It is a Covid19 Awareness Website made with HTML, CSS, and Bootstrap.
- It gives detailed information about precautions, symptoms, and the causes of Coronavirus guiding you about the various myth busters and activities taking place related to corona.
- In short, it is the go-to website for anyone who wants information related to corona and its updates.

#### **Travel Booking Website**

- Develop a travel booking website where users can search for flights, hotels, and vacation packages, make bookings, and manage their reservations.
- Implement features like real-time availability, price comparison, and integration with third-party APIs for booking and payment processing.
